INDEPENDENT AUDITOR'S REPORT

To the Members of Hexagon Nutrition Limited,
Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **Hexagon Nutrition Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), which comprise of the consolidated balance sheet as at March 31, 2026, the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity, and consolidated statement of cash flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as the 'Consolidated Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of management and other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2026, the consolidated profit, the consolidated total comprehensive income, the consolidated changes in equity and the consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Emphasis of matter

a. We draw attention to Note 46 to the Consolidated Financial Statements, which describes the matters relating to two foreign subsidiaries of the Holding Company reported by their respective auditors, Hexagon Nutrition Proprietary Ltd and Hexagon Nutrition LLC, that indicate the existence of a material uncertainty which may cast significant doubt on their ability to continue as a going concern.

b. We draw attention to Note 51 to the Consolidated Financial Statements, which describes the conversion of the Holding Company's Compulsorily Convertible Preference Shares (CCPS) into equity shares subsequent to the reporting date.

c. We draw attention to Note 52 to the Consolidated Financial Statements, which describes the listing of the Holding Company's equity shares on the stock exchange subsequent to the reporting date.

d. We draw attention to Note 54 to the Consolidated Financial Statements, which describes the merger of Hexagon Nutrition (Exports) Private Limited, a wholly owned subsidiary of the Company, with Hexagon Nutrition Limited, the Holding Company.

Our opinion on the Consolidated Financial Statements is not modified in respect of the above matters.

S.K. Patodia & Associates LLP ★ FRN 112723W/W100962 Mumbai ★ Chartered Accountants

Key Audit Matters

Key Audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our reports.

Based on our risk assessment procedure, we have identified following key audit risks / key areas and have formulated audit processes to check controls and transactions relating thereto:

Particulars	Considerations	Key Areas of Focus
Revenue recognition: Cut Off	• There is a risk that Revenue is not recognized in the correct period to which the transaction pertains or not recognized as per applicable Ind AS.	• Verify that revenue is recorded when control transfers. • Check goods dispatched before year-end but invoiced later and vice versa. • Review FOB, CIF, and other terms to determine correct revenue recognition point. • Ensure goods in transit at period-end are not prematurely recognized as revenue. • Verify internal movements are not booked as revenue. • Examine period-end adjustments to prevent cut-off errors or management override.
Inventory valuation	• Inventory represents a material balance on the Balance Sheet. Assessing the Net Realizable Value (NRV) requires significant management judgment regarding future demand, technological obsolescence, and selling prices. Overstatement risk exists if slow-moving or damaged stock is not adequately written down to NRV.	• Attend periodical physical inventory counts to evaluate the condition of stock and verify management's identification of damaged or slow-moving items. • Test a sample of inventory items by comparing their cost to actual post-period-end selling prices realized. • Assess whether provisioning policies appropriately reflect the expected recoverability of such inventory based on demand forecast, market conditions and turnover trends.
Capital Expenditure / Property Plant & Equipment / Depreciation	• Capital expenditure decisions involve substantial capital outlay and judgment regarding whether costs meet recognition criteria under IAS 16 / AASB 116 (Capital vs. Expense). Additionally, assessing useful lives, depreciation rates, and potential impairment indications involves significant estimation uncertainty.	• Authorization & Classification: Vouch a sample of CapEx additions to supplier invoices, contracts, and underlying board approvals to evaluate whether items qualified for capitalization or were repairs/maintenance. • Depreciation Policy Review: Assess the reasonableness of management's estimated useful lives and depreciation methods against asset performance and industry practices.

S.K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

Particulars	Considerations	Key Areas of Focus
		• Asset Verification & Impairment: Perform physical checks of a sample of newly capitalized assets and reviewi internal/external indicators of asset impairment.
Contingent liabilities	• Significant judgements and management estimates involved	• Inquire about any pending litigations, guarantees, or claims not recorded in books. • Evaluate controls over monitoring legal cases, issue tracking, and approval of guarantees. • Obtain a written management representation letter confirming the completeness of all disclosed contingent liabilities. • Obtain direct confirmation from the Group's external legal counsel regarding ongoing litigations, claims, assessments, or disputes. • Assess management's estimates on likelihood of loss and possible amount. • Review notices, assessment orders, appeals, and correspondence with tax authorities to identify pending tax matters.

Information other than the financial statements and auditors' report thereon

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. . The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are

reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective management and the Board of Directors of the entities included in the Group is responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group is also responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management of Holding Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on

the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors and certified by the management, such other auditors and management remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of three subsidiaries located outside India whose financial statements reflect total assets of ₹163.34 million, total revenue from operation of ₹373.94 million, net profit/ (loss) after tax of ₹41.47 million, total comprehensive income of ₹9.54 million and net cash flows of ₹34.76 million for the year ended March 31, 2026, whose financial statements/ information have been audited by their respective independent auditors as considered in the consolidated financial statements.

The independent auditors' reports on financial statements / information of these entities have been furnished to us and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these entities, is based solely on the reports of such auditors and the procedures performed by us are as stated in the paragraph above.

Our opinion above on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable. As required by Section 143(3) of the Act, we report that.

S.K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

2. As required by Section 143(3) of the Act, we report that:

   a) We / the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;

   b) In our opinion, proper books of account as required by law, relating to the preparation of the aforesaid Consolidated Financial Statements have been kept by the Holding Company so far as it appears from our examination of those books and report of other auditors.

   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Consolidated Total Comprehensive Income), the Consolidated Statement of Cash Flows, and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated Financial Statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2026 taken on record by the Board of Directors of the Holding Company, none of the directors are disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its subsidiaries incorporated in India, and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**".

   g) In our opinion, and according to the information and explanations given to us, and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended Mach 31, 2026, has been paid / provided by the Holding Company and its subsidiaries incorporated in India to its directors is in accordance with the provisions of Section 197 read with Schedule V to the Act.

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:

      i. The Group does not have any pending litigations which would impact its financial position except as disclosed in Note 39 to the consolidated financial statements.

      ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended March 31, 2026.

      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.

      iv.

         a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the group ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

S.K. Patodia & Associates LLP

Mumbai
Chartered Accountants

b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Group from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub clause under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The dividend declared or paid during the year by the Holding Company and/ or its subsidiaries is in compliance with section 123 of the Act.

vi. Based on our examination, which included test checks, we observed that the holding company and its subsidiaries incorporated in India have used an accounting software for maintaining its books of account which includes an audit trail (edit log) feature with limited details, The same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the holding company and its subsidiaries incorporated in India as per the statutory requirements for record retention.

Annexure B to the Independent Auditor's Report
Referred to in paragraph 1(f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date to the members of Hexagon Nutrition Limited

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Hexagon Nutrition Limited** ("the Holding Company"), its subsidiaries, incorporated in India (the Holding Company and its subsidiaries together referred to as "the Group") as of March 31, 2026 in conjunction with our audit of the consolidated financial statements of the Group for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Management and Board of Directors of the Holding Company, its subsidiaries incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by Institute Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of Holding Company and its subsidiaries based on our audit conducted in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India (ICAI). Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these consolidated financial Statements.

Meaning of Internal Financial Control over Financial Reporting with reference to Consolidated Financial Statements

The Company's internal financial controls over financial reporting with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

(i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation

Annexure B to the Independent Auditor's Report
Referred to in paragraph 1(f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date to the members of Hexagon Nutrition Limited

of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or dispositions of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to best of our information and according to the explanation given to us, the Holding Company and its subsidiaries, incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting with reference to consolidated financial statements and such internal financial controls over financial reporting with reference to consolidated financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting with reference to financial statements criteria established by the Holding Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

1. Corporate information

Hexagon Nutrition Limited (formerly known as Hexagon Nutrition Private Limited) ('the Company) is a company domiciled in India and registered under applicable companies Act. The Company is engaged in manufacturing and trading of nutraceuticals clinical or dietary supplements, micronutrient premixes and animal feed. Micronutrient Premix business of the Company focuses on the needs of fortifying basic foods with the right blend of micronutrients to meet the needs of the masses. Clinical Nutrition or Dietary Supplements offered by the company is intended to provide nutrients that may otherwise not be consumed in sufficient quantities by the masses. The range of feed additives offered by the Company to ensure wholesome nutrition for various animals.

The consolidated Financial Statements comprise of Ind AS financials Statements of Hexagon Nutrition Limited ('the company' 'the parent' or the Holding Company') and its subsidiaries (the holding company and its subsidiaries together referred to as 'the Group').

The Company has converted from a Private Limited Company to a Public Limited Company, pursuant to a special resolution passed in the extraordinary general meeting of the Shareholders of the Company held on 14 October 2021 and consequently the name of the Company has changed to Hexagon Nutrition Limited pursuant to a fresh certificate of incorporation issued by the Registrar of Companies, Mumbai on 15th November, 2021.

The registered office of the Company is located at 404 Global Chambers Adarsh Nagar Link Road Andheri (West), Mumbai – 400053, Maharashtra.

The consolidated financial statements are approved for issue in accordance with a resolution of the board of directors on 30 June 2026.

2. Material accounting policies

2.1 Basis of accounting, preparation and principles of Consolidated Financial Statements:

These Ind AS financial statements of the Company comprise of the Balance sheet as at March 31, 2026, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the period then ended, and a summary of material accounting policies other explanatory information. These Audited Ind AS financial statements have been prepared by the Company in accordance with Indian Accounting Standards (hereinafter referred to as "Ind AS") under the provisions of the Companies Act, 2013 (hereinafter referred to as `the Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

2.2 Basis of measurement

The Consolidated Financial Statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and financial liabilities measured at fair value; and
- Defined Benefit plans – plan assets measured at fair value.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

2.3 Basis of consolidation

The list of subsidiaries considered for consolidation together with the proportion of shareholding held by the Group is as follows:

Sr. no	Entity name	Date of becoming subsidiary	Country of Incorporation	Nature of relationship	% Holding as at March 31, 2026	% Holding as at March 31, 2025	% Holding as at April 01, 2024
01	Hexagon Nutrition (Exports) Pvt. Ltd.	24 July, 2012	India	Subsidiary	Merged	100%	100%
02	Hexagon Nutrition (International) Pvt. Ltd.	26 December, 2012	India	Subsidiary	100%	100%	100%
03	Hexagon Nutrition Healthcare Pvt. Ltd.	19 June, 2019	India	Subsidiary	100%	100%	100%
04	Hexagon Nutrition (PTY) Ltd.	21 January, 2020	South Africa	Subsidiary	100%	100%	100%
05	Hexagon Nutrition LLC	18 February, 2020	Uzbekistan	Subsidiary	100%	100%	100%
06	Hexagon Nutrition China Ltd.	19 March, 2020	Hong Kong	Subsidiary	100%	100%	100%

Control is achieved when the group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the group controls an investee if and only if the group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and - The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the group has less than a majority of the voting or similar rights of an investee, the group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

included in the consolidated financial statements from the date the group gains control until the date the group ceases to control the subsidiary.
Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31st. When the end of the reporting period of the parent company is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent company to enable the parent company to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

2.4 Summary of material accounting policies

Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. In particular, the Company has identified the following areas where assumptions and estimation uncertainties are most significant: useful lives of property, plant and equipment and intangible assets (Refer paragraph (g) and (h) below); actuarial assumptions for defined benefit obligations (Refer paragraph (n) below and Note 40); expected credit loss allowance on trade receivables and other financial assets (Refer paragraph (c) below); fair valuation of unquoted financial instruments (Refer paragraph (s) below); recognition of deferred tax assets (Refer paragraph (f) below); and assessment of contingent liabilities and provisions (Refer paragraph (q) below and Note 39).

a. **Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

S.K. Patodia & Associates LLP * FRN 112723W/W100962 Mumbai * Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Noncurrent Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

Business combinations under common control are accounted in accordance with Appendix C of IND AS 103 as per the pooling of interest method and the Ind AS Transition Facilitation Group Clarification Bulletin 9 (ITFG 9). ITFG 9 clarifies that, the carrying values of assets and liabilities as appearing in the standalone financial statements of the entities being combined shall be recognised by the combined entity.

As per Appendix C, Business Combinations of Entities under Common Control of Ind AS 103, Business Combinations, in case of common control business combinations, the assets and liabilities of the combining entities are reflected at their carrying amounts.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and its subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

b. Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Group has identified twelve months as its operating cycle for the purpose of current/ non-current classification of assets and liabilities.

c. **Foreign currencies**

Functional and presentation currency

The functional currency of the Company and its subsidiaries is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian National Rupee (INR). The functional currency of the subsidiaries are Indian Rupees (INR), South African Rand (ZAR), Hong Kong Dollar (HKD) and Uzbekistani So'm (UZS) where respective subsidiary company operate /exist.

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in a foreign currency outstanding at the year end are restated at the year end exchange rates.

Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or expense in the year in which they arise except for the following:

- Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting, such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.
- Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

On consolidation, The financial statements of the foreign subsidiaries and the joint venture company are translated into Indian Rupees as follows:

Income and expense items except opening and closing inventories are translated at the average exchange rate for the year.
All assets and liabilities are translated using the closing exchange rate
The differences on translation including those arising on elimination of non-monetary intra-group balances and transactions are taken to Foreign currency translation reserve (FCTR).
On disposal of a foreign operation, the component of FCTR relating to that particular foreign operation is recognized in the Consolidated Statement of Profit and Loss.

Any goodwill arising in the acquisition/ business combination of a foreign operation on or after 1 April 2016 and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Any goodwill or fair value adjustments arising in business combinations/ acquisitions, which occurred before the date of transition to Ind AS (1 April 2016), are treated as assets and liabilities of the entity rather than as assets and liabilities of the foreign operation. Therefore, those assets and liabilities are non-monetary items already expressed in the functional currency of the parent company and no further translation differences occur.
Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

d. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- Financial assets include cash and cash equivalents, trade receivables, unbilled revenues, finance lease receivables, security deposits, investments in equity and debt securities;

- Financial liabilities include long-term and short-term loans and borrowings, lease liabilities, derivative financial liabilities, bank overdrafts and trade payables

Financial assets:

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through OCI, or fair value through profit or loss.

Initially, a financial instrument is recognized at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognized in determining the carrying amount, if it is not classified as at fair value through profit or loss and transactions costs of financial

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

assets carried at fair value through profit or loss are expensed in profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

i) **Financial assets at amortised cost:**

A financial asset is classified as "financial asset at amortised cost" (amortised cost) under IND AS 109 Financial Instruments if it meets both the following criteria:

(1) The asset is held within a business model whose objective is to hold the financial asset in order to collect contractual cash flows, and

(2) The contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified date (the 'SPPI' contractual cash flow characteristics test).

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

ii) **Financial assets at fair value through other comprehensive income (FVTOCI):**

All equity investment in scope of IND AS 109 Financial Instruments are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which IND AS 103 Business Combinations applies are classified as fair value through profit or loss. For all other equity instruments, the Group may make irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-to-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument through fair value through other comprehensive income (FVTOCI), then all fair value changes in the instruments excluding dividends, are recognised in OCI and is never recycled to statement of profit and loss, even on sale of the instrument.

Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI

iii) **Financial assets at fair value through profit or loss (FVTPL)**

Financial assets at fair value through profit or loss include financial assets held for trading, e.g., derivative instruments, financial assets designated upon initial recognition at fair value through profit or loss, e.g., debt or equity instruments, or financial assets mandatorily required to be

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

measured at fair value, i.e., where they fail the SPPI test. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that do not pass the SPPI test are required to be classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Financial liabilities and equity instruments:

a) Classification as debt or equity

Debt and equity instruments issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

c) Financial liabilities

Financial liabilities are classified as either financial liabilities at 'FVTPL' or 'other financial liabilities'.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

i) **Financial liabilities measured at amortized cost**

After initial recognition, financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

ii) **Financial liabilities at fair value through profit or loss (FVTPL)**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. Gains or losses on liabilities held for trading are recognized in statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

De-recognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the balance sheet only if there is a current enforceable legal right to offset the recognised amounts and there is an intent to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets

The group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables, deposits and contract assets, the group applies a simplified approach in calculating ECLs. Therefore, the group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

d1. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds, including exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

e. **Revenue recognition**

Revenue from sale of goods is recognized at point in time when control is transferred to the customer and it is probable that consideration will be collected. Control of goods is transferred upon the shipment of the goods to the customer or when goods is made available to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for variable consideration such as volume discounts, cash discounts etc. as specified in the contract with the customer. The Company collects Goods and Services Tax on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

No element of financing is deemed present as the majority of sales are on cash basis and credit sales are made with normal credit period consistent with market practice.

Income from trading sales

Revenue from sale of goods is recognised when the goods are delivered to customers, all significant contractual obligations have been satisfied and the collection of the resulting receivable is reasonably expected. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of customer returns, trade allowance, rebates, goods and services tax and amount collected on behalf of third parties.

Historical experience, specific contractual terms and future expectations of sales returns are used to estimate and provide for damage or expiry claims.

Income from sale of service

Revenue from sale of services is recognized in accordance with the terms of the relevant agreements and is net of goods and service tax (GST), where applicable as accepted and agreed with the customers.

Interest income

Interest income on financial assets at amortised cost is recognised using the effective interest method. Effective interest is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the statement of profit and loss.

S.K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

HEXAGON NUTRITION LIMITED
(INDIA)

Dividend income

Dividend income is recognised when the Group's right to receive the payment is established by the reporting date.

Contract balances-

Trade receivables

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in point (d) above.

Contract assets

A contract asset is the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time (for example, the Company's future performance). Contract assets, including unbilled revenue, are subject to impairment assessment in accordance with the expected credit loss model described under 'Impairment of financial assets' above. Contract assets are reclassified to trade receivables when the right to consideration becomes unconditional.

Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the group transfers the related goods or services. Contract liabilities are recognised as revenue when the group performs under the contract (i.e., transfers control of the related goods or services to the customer).

f. **Taxes**

Tax expense comprises of current tax and deferred tax.

Current income tax

Current income tax is measured at the amount expected to be paid to or recovered from the tax authorities in accordance with the Income-tax Act, 1961. using the tax rates and tax laws that have been enacted by the balance sheet date. The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

g. Property, plant and equipment

Recognition and measurement

All items of property, plant and equipment except Freehold Land are initially measured at cost and subsequently it is measured at cost less accumulated depreciation and impairment losses, if any. Freehold Land Cost is carried at cost, net of accumulated impairment loss, if any. Cost comprises the purchase price, taxes, duties, freight, and any attributable cost of bringing the asset to its working condition for its intended use. When significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly Any subsequent cost incurred is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

S.K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

Capital work in progress comprises cost of property, plant and equipment (including related expenses), that are not yet ready for their intended use at the reporting date and it is carried at cost less accumulated impairment losses

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and carrying amount of the assets and are recognised in the statement of profit and loss when the asset is derecognised.

On transition to IND AS, the group has elected to continue with the carrying value of all its property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.
Depreciation on Property, plant and equipment
Depreciation is calculated on the straight line basis over the estimated useful lives of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The Group has used the following life to provide depreciation on its property, plant and equipment.

Description of Asset	**Useful lives**
Factory Buildings	30 years
Computers and Printers, including Computer Peripherals	3 years
Office Equipments	5 years
Furniture & Fixtures	10 years
Motor Vehicles	8 years
Plant & Machinery	15 years
Electrical Installations	10 years
Office Building	60 years
Factory Equipments	15 years

The rates of depreciation are equal to the corresponding rates prescribed in Schedule II to the Companies Act, 2013. Depreciation on addition / disposals during the year has been provided on pro rata.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

h. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition.

S.K. Patodia & Associates LLP Chartered Accountants FRN 112723W/W100962 Mumbai

HEXAGON NUTRITION LIMITED (INDIA)

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

On transition to IND AS, the group has elected to continue with the carrying value of all its Intangible Assets measured as per the previous GAAP and use that carrying value as the deemed cost of the Intangible Assets.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Amortisation of intangible assets

Amortisation is calculated on the straight-line basis over the estimated useful lives of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The Group has used the following life to provide amortisation on its intangible assets.

Class of asset: Software – Useful lives estimated by the management: 6 years

There are no intangible assets with indefinite useful lives.

h1. Investments in Subsidiaries, Associates and Joint Ventures

Investments in subsidiaries, associates, and joint ventures are carried in these separate financial statements at cost less accumulated impairment losses, if any, in accordance with Ind AS 27. Where the carrying amount of such investment exceeds its estimated recoverable amount, the carrying amount is written down immediately to its recoverable amount, with the impairment loss recognised in the statement of profit and loss. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised in the statement of profit and loss.

h2. Business combinations

Business combinations are accounted for using the acquisition method under Ind AS 103, except for business combinations of entities under common control, which are accounted for using the pooling of interests method in accordance with Appendix C to Ind AS 103. Under the pooling of interests method, the assets and liabilities of the combining entities are reflected at their carrying amounts, no adjustments are made to reflect fair values or to recognise new assets or liabilities, and the financial statements are presented as if the combination had occurred from the beginning of the earliest period presented. Refer Note 54 for details of the Scheme of Amalgamation given effect to during the current period.

i. Leases

The group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group's lease asset classes primarily consist of leases for Land & buildings, Plant and Equipment and Computers. The group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets.

Right-of-use assets

The group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Leasehold land - Over the shorter of the lease term and the estimated useful lives of the assets
- Plant and Equipment – Over the lease term
- Computers – Over the lease term

Lease Liabilities

At the commencement date of the lease, the group recognises lease liabilities measured at the present value of the future lease payments. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

B. K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

HEXAGON NUTRITION LIMITED
(INDIA)

The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note k Impairment of non-financial assets.

Short-term leases and leases of low-value assets

The group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as an operating expense in the statement of profit and loss.

j. **Inventories**

Basis of valuation

Inventories other than scrap materials are valued at lower of cost and net realizable value. The comparison of cost and net realizable value is made on an item-by-item basis.

Method of valuation

Cost of raw materials, packing materials and traded goods are determined by using weighted average method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

k. **Impairment of Non-financial assets**

The Group assesses, at each reporting date, whether there is an indication that an asset or a group of assets may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not

S.K. Patodia & Associates LLP
FRN 112723W/W100962
Mumbai
Chartered Accountants

HEXAGON NUTRITION LIMITED
(INDIA)

exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

l. Cumulative Compulsorily Convertible Preference Shares (CCPSs)

Cumulative Compulsorily Convertible Preference Shares is equity components based on the terms of the contract.

On issuance of the convertible preference shares, the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification.

The cumulative dividend attaching to the CCPS is [contractually mandatory / entirely at the discretion of the Company's Board of Directors, with no contractual obligation to distribute]. Notwithstanding the cumulative nature of the dividend, the Company has assessed, in accordance with Ind AS 32, paragraphs 15–27B, that the instrument does not contain a liability component requiring separation, because [state the specific basis — e.g., the Company retains an unconditional right to avoid delivering cash or another financial asset to settle the dividend obligation]. Accordingly, the entire proceeds on issuance of the CCPS have been classified as equity.

m. Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. Provisions are reviewed at each balance sheet and adjusted to reflect the current best estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed

HEXAGON NUTRITION LIMITED (INDIA)

n. **Retirement and other employee benefits**

Defined benefit plan

In accordance with applicable laws in India, the Group provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") for every employee who has completed 5 years or more of service on departure at 15 days salary (last drawn salary) for each completed year of service. The Gratuity Plan provides for a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment based on last drawn salary and tenure of employment with the Group. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation on the reporting date using projected unit credit method.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Re-measurements, of the net defined liability comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Defined contribution plan

The Group makes contributions to the recognized Provident Fund scheme, a defined contribution benefit scheme. These contributions are deposited with Government administered fund and recognised as an expense in the period in which the related service is performed. There is no further obligation on the Group on this defined contribution plan.

Compensated absences

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months period after the end of the period in which the employees render the related service. They are therefore, measured at the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method as determined by actuarial valuation, performed by an independent actuary. The benefits are discounted using the market yields at the end of reporting period that have the terms approximating to the terms of the related obligation. Gains and losses through re-measurements are recognised in Statement of profit and loss.

o. **Share-based payments**

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

S.K. Patodia & Associates LLP * FRN 112723W/W100962 Mumbai * Chartered Accountants *

HEXAGON NUTRITION LIMITED (INDIA)

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefit expenses, together with a corresponding increase in retained earnings in equity, over the period in which the service conditions and, where applicable, the performance conditions are fulfilled (the vesting period). The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions. No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When an award is modified, at minimum the cost of the original award is recognised as if it had not been modified (i.e. at the original grant date fair value, spread over the original vesting period, and subject to the original vesting conditions). This applies unless the award does not vest because of failure to satisfy a vesting condition (other than a market condition) that was specified at grant date.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where a modification is made after the original vesting period has expired, and is subject to no further vesting conditions, any incremental fair value is recognised immediately.

If the modification decreases the fair value of the equity instruments granted (e.g. by increasing the exercise price or reducing the exercise period), the decrease in value is effectively ignored and the entity continues to recognise a cost for services as if the awards had not been modified. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Cash-settled transactions

A liability is recognised for the fair value of cash-settled transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefit expenses (see Note 33). The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The fair value is determined using

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

a binomial model. The approach used to account for vesting conditions when measuring equity-settled transactions also applies to cash-settled transactions.

p. **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

q. **Contingencies**

A contingent liability is:

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or a present obligation that arises from past events but is not recognised because:

(i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

(ii) The amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the balance sheet. Where the outflow of resources embodying economic benefits becomes probable and the amount of the obligation can be measured reliably, a provision is recognised in place of the contingent liability disclosure, except for contingent liabilities assumed in a business combination that are present obligations arising from past events and whose fair values can be reliably determined, which are recognised as of the acquisition date.

Contingent liabilities recognised in a business combination

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions or the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the requirements for revenue recognition.

r. **Earnings per share**

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders of the parent company for the year by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax attributable to ordinary equity holders of the parent company using the weighted-average number of equity shares considered for deriving basic earnings per share and weighted average number of dilutive equivalent shares outstanding during the period, except where the results would be anti-dilutive. Dilutive potential shares are deemed converted at the beginning of the period, unless issued at later date.

Ordinary shares that will be issued upon the conversion of mandatorily convertible instruments are included in the calculation of basic earnings per share from the date the contract is entered into.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

s. **Fair value measurement**

The fair value of the financial instruments is included at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Group have assessed that the fair values of cash and cash equivalents, restricted cash, trade receivables (not subject to provisional pricing), trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.
There have been no transfers between fair value levels during the reporting period.

t. **Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker being Managing Director. The Managing Director assesses the financial performance and position of the Group as a whole, and makes strategic decisions.

u. **Cash Flow**

Ind AS 7 requires to exclude non-cash transaction relating to investing and financing activities from the statement of cash flow. However, such transactions should be disclosed elsewhere in the financial statements.
Cash and cash equivalents consist of cash on hand and balances with banks which are unrestricted for withdrawal and usage.

v. **Exceptional Items**

Exceptional items are those items that management considers, by virtue of their size or incidence (including but not limited to impairment charges and acquisition and restructuring related costs), should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

w. **Recent Pronouncements**

"Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the period ended December 31, 2025, MCA has notified following new standards or amendments to the existing standards applicable to the Company."

(i) Ind AS 1 – Presentation of Financial Statements (Liability Classification)

Amendments to Ind AS 1 revise how liabilities are classified as current or non-current, effective April 1, 2025. Classification now depends on the entity's "right to defer settlement" at the reporting date.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

Liabilities are current if a covenant is breached on or before the reporting date. The definition of settlement is broadened, and detailed disclosures about covenant compliance risks are required.

(ii) Ind AS 7 & 107 – Supplier Finance Arrangements

These amendments increase transparency for supplier finance arrangements, requiring disclosures in Ind AS 7 about terms, liability amounts, and payment due dates. Ind AS 107 requires disclosures about liquidity risk and the impact of these arrangements on liabilities.

(iii) Ind AS 21 – Foreign Exchange Effects (Lack of Exchangeability)

Amendments provide guidance on assessing currency exchangeability and, if not exchangeable, require entities to estimate the spot exchange rate and disclose the methodology.

(iv) Ind AS 12 – Income Taxes (Pillar Two Rules)

A temporary exception is introduced for recognizing and disclosing deferred tax assets/liabilities related to the OECD's Pillar Two global minimum tax rules. Companies must disclose qualitative and quantitative information about their exposure to these taxes.

In addition to above, The Government of India has officially announced the implementation of four new Labour Codes, effective 21 November 2025, replacing 29 existing central labour laws. These reforms aim to simplify compliance, modernize labour regulations, and enhance worker protection across the country.

Disclosure in relation to compulsorily convertible preference shares (CCPS)

16.7 Terms/ rights/ Issue/ redemption attached to Cumulative Compulsorily Convertible Preference Shares (CCPS)

Issue of Investor Preference Shares

The Company hereby agrees to take all such steps as are required, including passing of all necessary resolutions to ensure that the Investor Preference Shares, when issued, were in accordance with the Companies Act, all necessary applicable laws and the Transaction Documents.

Redemption

The Investor Preference Shares held by the Investor shall be compulsorily converted into Equity Shares and shall not be redeemable in any other manner except in accordance with the Act.

S K Patodia & Associates LLP Chartered Accountants FRN 112723W/W100962 Mumbai

HEXAGON NUTRITION LIMITED (INDIA)

16.8 Conversion of CCPS into Equity Shares

(a) The Investor Preference Shares shall compulsorily convert into Equity Shares of the Company upon the occurrence of any of the following events:
(i) expiry of the latest time permitted under applicable Law, when considering the listing the Equity Shares of the Company pursuant to a QIPO or IPO or Offer For Sale; or
(ii) expiry of 19 (nineteen) years and 11 (eleven) months from the CCPS Completion Date (as defined in the SSA) ("Conversion Period"); or (iii) any time prior to the expiry of the Conversion Period at the option and discretion of the Investor.

(b) In the event the Investor exercises its rights to convert any of the Investor Preference Shares in accordance with the Transaction Documents, then the Investor can notify the Company of the date on which Conversion needs to take place ("Conversion Notice").
(c) In the event of occurrence of events under paragraph 18.8(a)(i) above, the Company shall at the relevant time proceed for Conversion with prior written confirmation of the Investor.
(d) In the event of occurrence of events under paragraph 18.8(a)(ii) above, the Company shall at the relevant time automatically proceed for Conversion.
(e) The Investor Preference Shares shall be converted in accordance with the ratio determined in accordance with paragraph 19.4 below.
(f) The Company hereby agrees and undertakes that within 15 (fifteen) days of receiving the Conversion Notice, or expiry of 15 (fifteen) days from the Conversion Period, or the relevant time of the QIPO or Offer For Sale as the case may be ("Conversion Date"), the Company shall convert the Investor Preference Shares in accordance with the conversion ratio specified in paragraph 19.4 below. For such purpose, the Company shall hold a meeting of the Board or Shareholders, as may be required, and pass necessary resolutions issuing the Equity Shares to the Investor.
(g) In the event upon Conversion, the Equity Shares proposed to be issued to the Investor are fractional in number, then the number of Equity Shares shall be rounded off to the next whole number.
(h) The Equity Shares so issued and allotted to the Investor shall carry, from the date of Conversion, all rights pari passu with the Equity Shares of the Company existing as of date and each Equity Share shall carry one vote.
(i) The Company shall take all necessary approvals and requisite steps under Law to ensure that the aforesaid number of Equity Shares is issued to the Investor including increase in the authorised capital of the Company before Conversion of the Investor Preference Shares to accommodate the issuance of Equity Shares upon Conversion.
(j) The Investor shall have the right to convert each Investor Preference Shares, at any time, into 1 (one) Equity Share each, without any additional payment for such Conversion, subject to adjustment to facilitate the payout upon a Liquidation Event.
(k) The Company shall take all necessary approvals and requisite steps under applicable Law to ensure that the aforesaid number of Equity Shares is issued to the Investor.

16.9 Conversion Ratio

(a) Subject to the provisions of Clause 5 of the SHA (Anti-dilution), adjustments pursuant to sub-clause (b) below and any other applicable provisions of this Agreement, the Investor shall be entitled to convert the Investor Preference Shares, at an initial conversion ratio of 1:1.006757138 ("Conversion Ratio"), without any additional payment for such Conversion.
(b) Upon occurrence of Adjustment Event prior to a QIPO, the Investor shall be entitled to either: (i) an adjustment of the Conversion Ratio in accordance with the formula provided under Schedule A below; or (ii) require the Promoters and the Company to provide the
Investors with a complete exit within a period of 90 (ninety)ss days at a price equal to or more than the Trigger Price.

16.10 Dividend

The Investor shall be entitled to receive non-cumulative dividends on the Investor Preference Shares in preference to any dividend on the Equity Shares of the Company at the rate of 0.0001 % (zero point zero zero zero one per cent) of the Sale Consideration (as defined in the SPA) paid by the Investor, per annum for the Investor Preference Shares, if, when and as declared by the Board. For any other dividends or distributions, the Investor also shall be entitled to participate pro rata in any dividends paid on the Equity Shares on an As Converted Basis adjusted for any par value changes, on a cumulative basis.

16.11 Voting

Subject to applicable Law, the Investor Preference Shares shall carry such voting rights as are exercisable by persons holding Equity Shares in the Company and shall be treated pari passu with the Equity Shares on all voting matters. Further, subject to applicable Law, the holders of Investor Preference Shares and Equity Shares shall vote together and not as a separate class.

16.12 Priority

The Investor Preference Shares shall have priority over the preferences, rights and privileges of existing Equity Shareholders of the Company. The terms, preferences, rights and privileges of the Investor Preference Shares shall be superior to all other existing Shareholders.

16.13 Alteration of Terms of Issue

For any amendment/alteration of the terms of issuance of the Investor Preference Shares, the prior written consent of the Investor shall be necessary.

16.14 Taxes

The Company shall pay all taxes and stamp duty in relation to conversion of the Investor Preference Shares to Equity Shares in order for such Equity Shares to be registered in the name of the Investor.

16.15 In reference to above, conversion ratio, as per clause 5 of the share holder agreement (Anti dilution), the company had issued shares to employees under ESOP scheme-2018. This had resulted in Anti dilution and the cumulative convertible preference share holders are now eligible for additional shares @ 1.006757138 per share. The said will be convertible to equity shares at the time of conversion.

17.1 Purpose of Reserves;

a) Securities premium is received pursuant to the further issue of equity shares at a premium. This is a non-distributable reserve except for the following instances where the share premium account may be applied;

i) towards the issue of unissued shares of the Company to the members of the Company as fully paid bonus shares;

ii) for the purchase of its own shares or other securities;

iii) in writing off the preliminary expenses of the Company;

iv) in writing off the expenses of, or the commission paid or discount allowed on, any issue of shares or debentures of the Company; and

v) in providing for the premium payable on the redemption of any redeemable preference shares or of any debentures of the Company.

b) The General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be reclassified subsequently to the statement of profit and loss.

c) Foreign Currency Translation Reserve represents exchange differences arising on account of conversion of foreign operations to Company's functional currency.

d) Retained earnings represents the accumulated profits of the Company.

HEXAGON NUTRITION LIMITED INDIA

Notes to Consolidated Financial Statements
(All amounts in Rupees millions, unless otherwise stated)

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
29 REVENUE FROM OPERATION		
The geographical information analyses the Company revenues by the Company country of domicile(i.e. India) and other countries.		
Sale of products		
India (Including Sales to SEZ units)	1,640.69	1,343.94
Rest of World	2,175.37	1,902.40
	3,816.06	**3,246.34**
Other operating revenues *		
Export Benefits and Other Incentives	10.22	2.95
TOTAL	**3,826.28**	**3,249.29**
* Other operating revenue comprises mainly of Job work charges, duty drawback received, RODTEP etc.		

29.1 Disclosures under Ind AS 115 "Revenue from Contracts with Customers"

A) The operations of the Group are limited to one segment viz. Nutraceuticals. The products being sold under this segment are of similar nature and comprises of Premix, Brand and ESG. Accordingly, management has identified Nutraceuticals as the only operating segment for the Group.

B) Reconciliation of amount of revenue recognized in the Restated Consolidated Statement of Profit and Loss with the contracted price:

Particulars		
Revenue as per contracted price	3,935.32	3,317.84
Adjustments		
Less : Sales return	(119.26)	(71.50)
Other operating revenue	10.22	2.95
Revenue from contracts with customers	3,826.28	3,249.29

The management determines that the segment information reported under note 47 segment reporting is sufficient to meet the disclosure objective with respect to disaggregation of revenue under Ind AS 115 Revenue from contract with Customers. Henec, no separate disclosures of disaggregated revenues are reported.

C) Contract Balances (Net of allowances expected credit loss)

The following table provides information about receivables and contract liabilities from contracts with customers.

Particulars		
Receivables, which are included in "trade and other receivables"	817.18	598.24
Contract Liabilities, Advances from customers	11.54	15.32
Net	**805.64**	**582.92**

Increase in contract liabilities is primarily is on account of advances received as at period end. The amount included in contract liabilities as at 31 March 2026 & 31 March 2025 have been recognized as revenue during the respective subsequent years.

30 OTHER INCOME

Interest Income	9.23	4.79
Miscellaneous income *	5.47	12.09
Applicable Net Gain/(Loss) on Foreign Exchange	74.41	21.31

B. Defined Benefit Plan

The present value of Employees' Gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Particulars	Gratuity (Unfunded)	
	Year ended March 31, 2026	Year ended March 31, 2025
a. Reconciliation of opening and closing balances of Defined Benefit obligation

42 Leases

Effective April 1, 2019, the group has adopted Ind AS 116, Leases, using modified retrospective approach. On adoption of the new standard IND AS 116 resulted in recognition of 'Right of Use' assets and a lease liability . The cumulative effect of applying the standard was debited to retained earnings. The effect of this adoption is insignificant on the profit before tax, profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

Following are the changes in the carrying value of right of use assets for the year ended;

Particulars	As at March 31, 2026	As at March 31, 2025
Opening carrying value of Rights to use Assets	19.85	17.74
Addition	3.79	3.35
Depreciation	(2.55)	(1.24)
Deletion	-	-
Balance	**21.09**	**19.85**

The following is the break-up of current and non-current lease liabilities as at year ended;

Particulars	As at March 31, 2026	As at March 31, 2025
Current lease liabilities	3.54	1.48
Non-Current lease liabilities	20.36	19.80
Balance	**23.90**	**21.28**

The following is the movement in lease liabilities during the year ended;

Particulars	As at March 31, 2026	As at March 31, 2025
Opening balance of lease liabilities	21.28	18.14
Addition	3.79	3.35
Finance cost accrued during the year	2.09	1.72
Payment of lease liabilities	(3.26)	(1.93)
Deletion	-	-
Balance	**23.90**	**21.28**

The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis as at;

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
- Less than one year	4.33	2.08
- Later than one year but not later than five years	8.93	9.45
- Later than five years	773.52	774.35
TOTAL	**786.78**	**785.88**

The following are the amounts recognised in the statement of profit and loss;

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Amortisation of Right to use of Assets	2.55	1.24
Interest on Lease obligation	2.09	1.72
Expense relating to short-term leases (included in other expenses) (refer no. 35)	0.23	0.00
TOTAL	**4.87**	**2.96**

The following are the amounts recognised in the cash flow statement;

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Payment of lease liabilities	3.26	1.93
TOTAL	**3.26**	**1.93**

One subsidiary (HNIPL) had entered into long term lease agreement for 97 years as per agreement dated 9th April 2014.

B) Measurement of fair values

Valuation techniques and significant unobservable inputs
The following table shows the valuation techniques used in measuring Level 2 and Level 3 fair values for financial instruments measured at fair value in the balance sheet, as well as the significant unobservable inputs used.

Financial instruments measured at fair value through profit or loss

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Investment in mutual funds	The fair values of investments in mutual fund units is based on the net asset value ("NAV") as stated by the issuer of these mutual fund units in the published statements as at Balance Sheet date.NAV represents the price at which the issuer will issue further units of mutual fund and the price at which the issuers will redeem such units from the investor.	Not applicable	Not applicable

44 Financial risk management

The Group has exposure to the following risks arising from financial instruments:

a. credit risk ;
b. liquidity risk ; and
c. market risk

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Board of Directors. The activities of this department include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment.

The audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

a. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. The carrying amounts of financial assets represent the maximum credit exposure.

Trade receivables

The Group extends credit to customers in normal course of business. The Group considers factors such as credit track record in the market and past dealings for extension of credit to customers. To manage credit risk, the Group periodically assesses the financial reliability of the customer, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivables. Outstanding customer receivables are regularly monitored to make an assessment of recoverability. Receivables are provided as doubtful / written off, when there is no reasonable expectation of recovery. Where receivables have been provided / written off, the Group continues regular follow up,engage with the customers, legal options / any other remedies available with the objective of recovering these outstandings.The Group is not exposed to concentration of credit risk to any one single customer since services are provided to vast spectrum. The Group also takes security deposits, advances , post dated cheques etc from its customers, which mitigate the credit risk to an extent.

Investments in companies

The Group has made investments in subsidiaries. The Group does not perceive any credit risk pertaining to investments made in such related entities.

Cash and cash equivalents

The Group held cash and cash equivalents with credit worthy banks of Rs. 157.74 mn as at 31 March 2026 (31 March 2025 : Rs. 152.23 mn). The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

Exposure to credit risk

The allowance for impairment in respect of trade receivables during the year was (Rs. 9.13 mn) as at 31 March 2026 (31.3.2025 : Rs. 4.37 mn);

The movement in the allowance for impairment in respect of trade and other receivables during the year was as follows.

Particulars	Amount in INR MN
As at March 31, 2024	**9.18**
Impairment loss recognised	4.37
As at March 31, 2025	**13.55**
Impairment loss recognised	(9.13)
As at March 31, 2026	**4.42**

The Group has no other financial assets that are past due but not impaired.

S.K. Patodia & Associates LLP FRN 112723W/W100962 Mumbai Chartered Accountants

HEXAGON NUTRITION LIMITED (INDIA)

b. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Exposure to liquidity risk

The table below summarises the maturity profile of the Group's financial liabilities at the balance sheet date based on contractual undiscounted repayment obligations.

Particulars	Contractual cash flows			
	One year or less	1 - 5 years	More than 5 years	Total
As at March 31, 2026				
Non - derivative financial liabilities				
Borrowings	244.96	58.50	-	303.45
Lease Liabilities	4.33	8.93	773.52	786.78
Trade payables	287.92	-	-	287.92
Other financial liabilities	123.48	5.98	-	129.46
	660.69	**73.41**	**773.52**	**1,507.61**
As at March 31, 2025				
Non - derivative financial liabilities				
Borrowings	194.96	71.27	-	266.23
Lease Liabilities	2.08	9.45	774.35	785.88
Trade payables	188.25	-	-	188.25
Other financial liabilities	97.29	5.98	-	103.27
	482.58	**86.71**	**774.35**	**1,343.63**

c. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings and bank deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to interest rate risk:

The Group's exposure to market risk for changes in interest rates relates to fixed deposits and borrowings from banks.

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Fixed-rate instruments:		
Financial asset (Bank deposits)	(42.93)	(57.93)
Financial liabilities (Borrowings)	150.00	-
	107.07	**(57.93)**
Variable-rate instruments:		
Financial liabilities (Borrowings)	153.14	266.00
	153.14	**266.00**

Fair value sensitivity analysis for fixed-rate instruments

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in IND AS 107, since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Group's loss before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Increase in basis points	50 basis points	50 basis points
Effect on profit before tax	(0.77)	(1.33)
Decrease in basis points	50 basis points	50 basis points
Effect on profit before tax	0.77	1.33

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

HEXAGON NUTRITION LIMITED (INDIA)

Notes to Consolidated Financial Statements
(All amounts in Rupees millions, unless otherwise stated)

Foreign currency risk

The Group is exposed to currency risk on account of its operating and financing activities. The functional currency of the Group is Indian Rupee. Our exposure are mainly denominated in U.S. dollars. The USD exchange rate has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Group's business model incorporates assumptions on currency risks and ensures any exposure is covered through the normal business operations. This intent has been achieved in all years presented. The Group has put in place a Financial Risk Management Policy to Identify the most effective and efficient ways of managing the currency risks.

Exposure to currency risk
The currency profile of financial assets and financial liabilities as at March 31, 2026 and March 31, 2025 are as below:

As at March 31, 2026	USD	Euro	RAND/ZAR
Financial assets			
Advance to suppliers	0.01	0.15	-
Trade Receivables	7.00	-	-
Less : Trade Receivables hedged	(0.58)	-	-
Loans Given to subsidiaries	1.99	-	-
Net exposure for assets	**8.42**	**0.15**	**-**
Financial liabilities			
Advance from customers	0.07	-	-
Trade Payables	0.40	0.00	-
Net exposure for liabilities	**0.47**	**0.00**	**-**
Net exposure (Assets - Liabilities)	**7.94**	**0.15**	**-**

As at March 31, 2025	USD	Euro	RAND/ZAR
Financial assets			
Advance to Staff	0.00	-	-
Advance to suppliers	0.00	0.06	-
Trade Receivables	6.27	-	-
Loans Given to subsidiaries	1.97	-	0.44
Net exposure for assets	**8.24**	**0.06**	**0.44**
Financial liabilities			
Advance from customers	0.14	-	-
Trade Payables	0.67	-	-
Net exposure for liabilities	**0.81**	**-**	**-**
Net exposure (Assets - Liabilities)	**7.43**	**0.06**	**0.44**

Sensitivity analysis
A reasonably possible strengthening / (weakening) of the Indian Rupee against US dollars at 31st March would have affected the measurement of financial instruments denominated in US dollars and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. In cases where the related foreign exchange fluctuation is capitalised to fixed assets, the impact indicated below may affect the Group's income statement over the remaining life of the related fixed assets or the remaining tenure of the borrowing respectively.

Impact of movement on Profit or (loss) and Equity :

Effect in INR (before tax)	Profit or (loss) and Equity	
	Strengthening	Weakening
Year ended March 31, 2026		
1% movement		
USD	(7.40)	7.40
EURO	(0.16)	0.16
RAND/ZAR	-	-
	(7.56)	**7.56**

Effect in INR (before tax)	Profit or (loss) and Equity	
	Strengthening	Weakening
Year ended March 31, 2025		
1% movement		
USD	(6.32)	6.32
EURO	(0.05)	0.05
RAND/ZAR	(0.02)	0.02
	(6.40)	**6.40**

Notes to Consolidated Financial Statements
(All amounts in Rupees millions, unless otherwise stated)

Commodity and other price risk
The Group is not exposed to the commodity risk.

Price risk:
The Group is exposed to price risk arising from investments held by the Group and classified in the balance sheet either as fair value through profit or loss. To manage its price risk arising from investment in securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

b) Financial Instruments regularly measured using Fair Value - recurring items

Particulars	Fair Value			
	Financial assets/ Financial liabilities	Category	As at March 31, 2026	As at March 31, 2025
Investment in mutual funds- Quoted	Financial assets	FVTPL	374.07	339.52
			374.07	**339.52**

The table below summaries the impact of increases/decreases of the index on the Group's equity and profit for the period. The analysis is based on the assumption that the equity/index had increased by 1% or decreased by 1% with all other variables held constant, and that all the Group's equity instruments moved in line with the index.

On investments- Sensitivity analysis
As at March 31, 2026

Particulars	Carrying value	Fair value	Sensitivity to fair value	
			1% increase	1% decrease
Investment at FVTPL	374.07	374.07	3.74	(3.74)
	374.07	**374.07**	**3.74**	**(3.74)**

As at March 31, 2025

Particulars	Carrying value	Fair value	Sensitivity to fair value	
			1% increase	1% decrease
Investment at FVTPL	339.52	339.52	3.40	(3.40)
	339.52	**339.52**	**3.40**	**(3.40)**

45 Capital Management
The Group manages the capital structure by a balanced mix of debt and equity. Necessary adjustments are made in the capital structure considering the factors vis-a-vis the changes in the general economic conditions, available options of financing and the impact of the same on the liquidity position. Higher leverage is used for funding more liquid working capital needs and conservative leverage is used for long-term capital investments. The Group calculates the level of debt capital required to finance the working capital requirements using traditional and modified financial metrics including leverage/gearing ratios and asset turnover ratios.

As of balance sheet date, leverage ratios is as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Total borrowings	303.14	266.00
Less: Cash and cash equivalents	157.74	152.23
Adjusted net debt	145.40	113.77
Total Equity	2,332.93	1,941.81

As of March 31, 2026, the financial statements of the subsidiary entities, Hexagon Nutrition Proprietary Ltd (HNPTY) South Africa and Hexagon Nutrition LLC (HNLLC) Uzbekistan, reflect a net liability position amounting to Rs. (121.91) million due to historical accumulated losses. However, both entities have demonstrated operational recovery and registered net profits amounting to Rs. 39.50 million during the current financial year. Management has initiated robust strategic interventions aimed at reviving business performance, enhancing revenue streams, and optimizing cost structures across these overseas operations.

While the current year's profitability reflects a positive trend, long-term sustainability remains subject to regional market dynamics, presenting a material uncertainty regarding future cash flows. To mitigate this risk, the Holding Company has committed to provide unconditional financial support, guaranteeing to fund all future liabilities and operational obligations as and when they fall due. Consequently, given this definitive backing and the current operational trajectory, management retains a reasonable expectation of the entities' long-term viability, and these financial statements have been prepared on a Going Concern basis.

47 Operating Segments

A. Basis for segmentation

The operations of the Group are limited to one segment viz. Nutraceuticals. The products being sold under this segment are of similar nature and comprises of Premix, Brand and ESG only.

The Group has identified their Managing Director as their Chief Operating Decision Maker (CODM). The Company's Chief Operating Decision Maker (CODM) reviews the internal management reports prepared based on aggregation of financial information for all entities in the Group (adjusted for intercompany eliminations, adjustments etc.) on a periodic basis, for the purpose of allocation of resources and evaluation of performance. Accordingly, management has identified nutraceuticals as the only operating segment for the Group.

	0.58	**53.46**	**0.49**	**42.29**

51 Subsequent to the financial year end, on April 20, 2026, the Company converted its outstanding Compulsorily Convertible Preference Shares (CCPS) into Equity Shares of face value of ₹1/- each, in accordance with the terms of the investment agreement and the conversion ratio approved by the Board.
Consequently, the paid-up equity share capital of the Company stands increased from the said date. This capital restructuring was completed prior to the Initial Public Offering (IPO) and subsequent listing of the Company's equity shares on the stock exchanges on June 12, 2026.
There is no impact of this conversion on the financial numbers or profitability of the Company for the financial year ended March 31, 2026, except for the necessary disclosures under Diluted Earnings Per Share (EPS).

52 Subsequent to the financial year end, the Company completed its Initial Public Offering (IPO) through a 100% Offer for Sale (OFS) of 3,08,59,704 equity shares of face value of ₹1/- each at an offer price of ₹45/- per share, aggregating to ₹138.87 crores by the existing selling shareholders.
The equity shares of the Company were subsequently listed on the National Stock Exchange of India Limited (NSE) and BSE Limited (BSE) on June 12, 2026.
Since the issue was entirely an Offer for Sale, the Company did not receive any proceeds from the IPO. All eligible share issue expenses are being recovered from the selling shareholders in accordance with the offer agreements, and there is no impact on the financial position or profitability of the Company for the year ended March 31, 2026.

53 One subsidiary company (HNIPL) falls under 12th year of benefit as on 31st March 2026 under Section 10AA of Income Tax Act, 1961.

54 Scheme of Amalgamation

(A) Background

The Board of Directors at their meeting held on March 19, 2025, considered and approved to restructure the business by way of a Scheme of Amalgamation for merger ("Scheme") whereby Hexagon Nutrition (Exports) Private Limited ("Transferor Company") will be merged into Hexagon Nutrition Limited ("Transferee Company"). Subsequently, an application was made on May 10, 2025 to the National Company Law Tribunal ("NCLT"). The NCLT passed an order dated January 14, 2026 vide Order No. CP (CAA) No. 225 (MB) 2025 in CA (CAA) No. 141 (MB) 2025, with an appointed date of the Scheme as April 1, 2025. In accordance with the requirements of paragraph 9(iii) of Appendix C of Ind AS 103, the financial statements of the Company in respect of the previous year have been restated.

(B) Common Control Relationship

Hexagon Nutrition (Exports) Private Limited was a wholly-owned subsidiary of the Company since July 24, 2012. Accordingly, both the Transferor Company and the Transferee Company were under the common control of Mr. Arun Kelkar, Mr. Subhash Kelkar, Dr. Nikhil Kelkar and Mr. Vikram Kelkar both before and after the Scheme, and such control was not transitory. The Scheme therefore falls within the scope of Appendix C of Ind AS 103, and has been accounted for using the pooling of interests method.
